Proceedings of Graduation Thesis 2006
Department of Architecture, Faculty of Engineering, Hokkaido University

Contents

Accepted on Dec. 1st. 2006

【Structural Analysis】
ABURAKAWA Tatsuki
Supervisors:M.Midorikawa,H.Takizawa,T.Asari
Energy response of building structures with uplift subjected to earthquake motions
1

HORI Hirotake
Seismic Response Analyses of Eccentrically Braced Full-Scale Steel Test Structure
3

MATSUMO Tomohiko
Seismic Damage Prediction of Reinforced Concrete Buildings in Hokkaido Based on Seismic Performance Index
5

WATANABE Kohei
Dynamics of the Iwan's non-dispersive damping model
7

【Structural Planning】
YANO Takahiro
Supervisors:M.Ueda,M.Kikuchi,T.Koshikawa
Comparison of the past prediction formulae for drying shrinkage and creep of concrete
9

【Urban Disaster Protection Planning】
HONMA Shota
Supervisors:H.Kagami,N.Takai
An Investigation of Nonlinear Site Response Effect on Strong Ground Motion of 2003 Tokachi-oki Earthquake Using the S-wave H/V Spectral Ratio
11

【Architectural History and Design】
ENDO Yu
Supervisors:Y.Kado,T.Ozawa,M.Ishimoto
A study on the development of a redesign townscape and the residents consideration on the town planning based on historical elements -Case study in Esashi-
13

OIKAWA Naoyoshi
A study of Fishermen's Houses at Erimo in Hokkaido
15

KAWAMURA Kusamao
How the Architectural Institute of Japan has claimed for historical architecture -The Architecture to be preserved and its value-
17

NAKAGAWA Takeru
The development of semi Western-style Machiya in Hakodate during Meiji and Taisho era
19

YAMAZAKI Hitomi
A study on the former Fukagawa branch of Hokkaido Takushoku Bank,1937
21

NOZAWA Naoyuki
A study on the Banya of the Shiratori family in Hamamasu, Hokkaido
23

【Planning and Design of Living Environment】
KITA Aya
Supervisors:T.Noguchi,M.Morishita
Neighborhood-Parks for children and elderly people in snowy districts
25

KIRI Keisuke
Townscape transformation of Sapporo city during 1975, 1990 and 2006
27

MATSUMIYAMA Yasuhiro
Evaluation and improvement on housing outdoor spaces -Makomanai in Sapporo as case study-
29

YAMAGUCHI Kentaro
Living conditions and residents consciousness at group living areas -In case of Kujuro Hime in Sapporo-
31

WATANABE Masato
Spatial characteristics of Hokkaido villages' landscape -Shape and arrangement of agricultural facilities-
33

【Urban Planning And Design】
OGURI Masami
Supervisors:H.Kobayashi,T.Setoguchi,T.Ozasa
Process of Making Partnership for Regional Planning in Hokkaido - A Case Study on Seven Cities in Mt.Yotei Area-
35

TAMURA Asagi
Issues and Directions toward Self-Management based on Citizens' Intention of Activities in Newtown - In Case of Kita-hiroshima Housing Estate and Tohbu Area-
37

HOTTA Shunji
Possibility and Problems of the Rurban Life Style toward Regeneration of Farm Village Area in Hokkaido - A Case Study of 4 Towns in the South Sorachi Region-
39

MAEDA Yuhya
A Viewpoint and Task of Responsible Partnership for Sustainable and Regional Revitalization in the Local Industrial City -In Case of a Society for the Study of Muroran Zero Emission Town-
41

YAHARA Yuri
The Actual Conditions and Developing Process toward Community Design by Using Regional Resources -In Case of Hokkaido Heritage-
43

YANAI Mina
The Actual Conditions of the Responsibility Development and Issues of Making Partnership toward Area Management -In Case of Geijutsu-no-mori Area in Sapporo City-
45
### Architectural Environment

**SAKAI Koichiro**
A Study on Grouping of Open Spaces and these Thermal and Air Environment

**SHIRAISHI Yohei**
Evaluation of the Indoor Environment for Highly Insulated Office Buildings Adopted Floor Cooling System with Thermal Storage Used Water as Heating Medium

**HATANAKA Masahiro**
Verification of the Floor Cooling Effect for Highly Insulated Office Buildings Adopted Floor Cooling System with Thermal Storage Used Water as Heating Medium

**MATSUMURA Ryosuke**
Investigation and Improvement of Thermal Environment in Bathrooms

**MORIKAWA Shota**
A Study on Energy Consumption of Common Spaces in Apartment Houses

### Environmental City Planning

**AIZAWA Takuya**
The Large-scale Shopping malls and Suburban developments in Compact City Aomori

**SATOY Yuuki**
The History of the City Planning Park and Boulevards in Otaru

**TOMINAGA Yousuke**
Planning Concept of Ofuna Garden City and Kamakurayama Garden Suburb

**HIROSE Mitsunari**
On the Role and Effects of the Height Control Zone in Sapporo

### Architectural Morphology

**TAKAHASHI Hiromu**
Relations between the Post Office and the Community of Underpopulated Areas in Hokkaido

**TAMURA Ichiro**
An Analysis on Urban Climate of Sapporo Based on Multi-sensor-data

**Xu Liang**
An Analysis of Present Forest Fire Situation in the North-East of China

### Structural Performance

**SATOH Yuki**
Experiments on Shear Behavior of Composite Frames with Concrete Encased Steel Columns and Steel Beams

**SHIMODA Kazuhiro**
Experiments on Shear Resistance of Confined Masonry Walls with an Opening -Effect of Opening Area or Strengthening around the Opening-

### Building Materials

**YONEDA Kyoko**
Effects of alternating immersion on frost resistance of various concrete

**MIYAMOTO Naoyuki**
Effects of alternating immersion or freezing and thawing on the integrity of concrete and light-weight mortar

**IGARASHI Motoaki**
Effects of alternating immersion or freezing and thawing on the evaluation of floating dust stain on coating materials

**YOSHIDA Sachiko**
A study on the frost deterioration prediction of siding materials using the Critical Degree of Saturation Method - Effects of alternating immersion modeled after natural conditions -

**MATSUI Tomohiko**
Drying of insulation materials depend on the environmental conditions and the specifications of vented air layer for exterior wall

Supervisors: M.Enai, H.Hayama, H.Kikuta

Supervisors: A.Koshizawa

Supervisors: H.Hayasaka, S.Mori

Supervisors: Y.Goto, T.Kitano

Supervisors: O.Senbu, T.Hasegawa, T.Hasegawa
