

Proceedings of Graduation Theses submitted to
Department of Architecture, Faculty of Engineering, Hokkaido University
2005

Contents

Accepted in Nov.29,2005

【Structural Analysis】	Supervisors:M.Midorikawa,H.Takizawa,T.Asari	
UEHARA Chihiro	Performance of Displacement Restraint Elements for Seismically Isolated Houses	1
SUDO Tomofumi	Hysteretic Characteristics of Yielding Base Plates in Uplift Direction for Reduction of Seismic Response	3
TAKAHASHI Susumu	Consistency in Replacing Framed Structures as Distributed-Parameter systems (with Emphasis on the Effects of Coupled Shear Walls)	5
SATO Yasuo	Seismic performance of existing RC buildings in Hokkaido based on seismic capacity index	7
【Structural Planning】	Supervisors:M.Ueda,M.Kikuchi,T.Koshikawa	
KOBAYASHI Masahito	Structural Performance of Precast Concrete Beam-to-Column Subassemblages with Hybrid Post-Tensioned Connection	9
SUGIYAMA Toru	Shear Transfer Experiment of Mortar Joint Surface between Steel Plates	11
TAKEDA Yusuke	Seismic Performance of United Church of Christ in Hakodate	13
NAGAI Emi	Seismic Performance of The Former Hokkaido Government Office Building	15
YOKOMICHI Sota	Extension of the Shear Loading System controlled by 4-Axes for Concrete Crack Surface	17
【Urban Disaster Protection Planning】	Supervisors:H.Kagami,N.Takai	
ITO Keisuke	Multi Agent Simulation for Mass-Evacuation from Supermarket	19
OKUYAMA Takayuki	A Study on High Seismic Intensity in Suwa Basin during the 1944 Tonankai Earthquake using K-NET Data	21
TAMAKAWA Natsuko	Multi Agent Simulation for Tsunami Evacuation at Kyouann District in Kushiro City	23
OHWADA Mari	Literature Survey on Human Casualties during Damaging Earthquakes in Japan after 1946	25
【Architectural History and Design】	Supervisors:Y.Kado,T.Ozawa,M.Ishimoto	
IKEMURA Nana	A study on the houses by the subdivision business of Kobayashi-shokai and the development of housing union in Sapporo before WWII	27
SENO Toru	A study on the reuse of stone or brick warehouses in Sapporo	29
MIYABE Yoshihiro	The influence of architectural foreign book on the barn built by Kaitakushi	31
WATANABE Yasunori	An investigation of the kindai-wafu style house in Sapporo	33
TAKAHASHI Kanako	A study on the primary schools of Sapporo in the early Meiji era -A restorative study on the public Dai-Ichi Gakkou (1876)-	35
【Planning and Design of Living Environment】	Supervisors:T.Noguchi,M.Morishita	
OTSUKI Masahiro	Spatial characteristics of Hokkaido villages' landscape -Arrangement of agricultural facilities-	37
ONO Megumi	Life style requirements for retirement -Study on housing for aged society-	39
SATO Daiki	Spatial characteristics of Hokkaido villages' landscape -Arrangement of agricultural cilities-	41
SHICHIDA Yusuke	Living conditions and community over 25 years of Sapporo town houses	43
SHIBAI Kenichi	Arrangement of high-rise apartments around open spaces -Utilization of parks by users and occupants-	45
【Urban Planning And Design】	Supervisors:H.Kobayashi,T.Setoguchi,T.Ozasa	
AOKI Jun	A Study on Typical Analysis from Characteristic of Activity and Partnership in the Regional Organization Utilizing Local Resources -In Case of Hokkaido Scenic Byway-	47
ISHIDA Jun	The Direction of Community Design Center through Relation between the Activity Actual Condition and the Area Characteristic -In the Case of Sapporo City-	49
INOMATA Yu	The Subject to the Regeneration of Living Environment based on Resident's Intentions in Public Residential Areas - In Cases of Ohasa Housing Estate and Momijidai Housing Estate -	51
MARUYAMA Kazuki	The Citizens' Intension and Characteristic of a Regional Collaborate Administration based on the Contents of the Consultation through the process of municipalities mergers -In The Case of Seventy Municipalities Mergers Conference-	53

【 Architectural Environment 】	Supervisors:M.Enai,H.Hayama	
IZUMI Takanori	An Experimental Study on Energy Savings for Data Center -Influences of Equipment on The Air-conditioning Efficiency-	55
ICHIJO Kazuya	Basical Study for Development of Convenient Commissioning Method -On A Survey of Schools in Sapporo-	57
SUETO Mina	A Study on Snow Countermeasures for the Parking Area of Apartment Houses	59
YOSHIKAWA Mayumi	Observations on Thermal Storage Effects for RC External Insulated Houses in A Warm Region	61
ITOIGAWA Takaho	Experimental Study of Thermal Comfort and Cooling Characteristic of the Ceiling Radiant Cooling System	63
【 Environmental City Planning 】	Supervisors:A.Koshizawa	
OKABE Hiroyuki	The Conservation of Three Major Green Space in Urbanization Promotion Area in Kamakura	65
TSURUYA Makoto	A Study on the Original Planning Ordinance in Higashikawa Town	67
HASEGAWA Kazuki	The Distinctive Feature and Activity toward Scenic Renovation in Omi-hachiman City	69
YAMAGUCHI Yuki	The Role of the Community Association for Creation of Amenity of Ryokuen-toshi in Yokohama	71
【 Architectural Morphology 】	Supervisors: H.Hayasaka,S.Ikegami,S.Mori	
KATO Yoshio	Research Analysis on Visual Phenomena in "Moere-numa Park" from the Ecological Geometry Perspective	73
SAGAWA Keiko	Method for Evaluation about Accessibility of Public Restroom -Focusing on the wheelchair users' behavior to use the restroom-	75
TANAKA Yusuke	Analysis of Actual Situation of Heat Island Phenomenon in Sapporo	77
HITOMI Yu	The Spatial Perception and the Use of White Canes by Visually Handicapped Persons -Analyzing from the viewpoint that how totally blind persons use their white cane to orient themselves when walking-	79
【 Structural Performance 】	Supervisors:O.Joh,Y.Goto,T.Kitano	
KOBAYASHI Naoki	Experiments of Composite Frames with SRC Columns and Steel Beams Constructed by Simplified Method	81
KOBAYASHI Hideyuki	Experiments on Shear Resistance of Confined Masonry Walls with a Different Shape of Opening	83
SUGAWARA Akito	Experiments on Bond Characteristics between Concrete and Shaped Steels -Influence of Cross-sectional Shapes-	85
YONETANI Kazuki	Experiments on Anchorage Behavior of Steel Column Bases with T-Shaped Steel Anchors -Performances of Column Bases and Elements-	87
【 Building Materials 】	Supervisors:O.Senbu,T.Hasegawa,T.Hasegawa	
KIYOTA Yusuke	Effects of Alternating Immersion or Freezing & Thawing on Evaluation of Flowing Rain Soiling on External materials	89
SAKAI Masaki	Effects of Alternating Immersion on Frost Resistance of High Strength Concrete	91
SAKAGUCHI Ayumi	Bond strength of mortar to concrete depend on press strength on external insulation of building	93
MATSUDA Takahito	Effects of Alternating Immersion or Freezing and Thawing on Integrity of Concrete and Patching Materials	95
OHNO Hirotsugu	Study on strain caused by temperature change related to siding materials in external insulation building	97
