Lecture Guide (Spring Term, 2020)

Fluid Power Systems

流体エネルギー工学特論

Lecture by Yuichi Murai

All Lectures are given in Video

Please use "eLearning" for all the seven lectures. Murai of 6 years ago will make the lectures for you! Please click below to make your account in CEED.

Count	Category	Subject
1	Wind Power	Betz Theorem
2	Wind Power	Theory of Blades
3	Hydro Power	Similarity Law
4	Hydro Power	Friction Law
5	Multiphase Flow	Rheology
6	Multiphase Flow	Averaging
7	Multiphase Flow	Turbulence

Choose "Fluid Power Systems" and find below

第1回 / Section 1

撮影日: 平成26年04月10日

講師:村井祐一 教授

Videotaped on Apr. 10th, 2014.

Lecturer: Professor Yuichi MURAL

III 第1回講義 / Lecture 1 ← 1: Please play this lecture video. (Around 70 minutes)

第1回講義 / Lecture 1

2: Please have this handout. 学生から秘匿

第1回配付資料 / Handouts of Lecture 1

第1回小テスト/Quiz 1 ← 3: Please solve this quiz and submit to Murai (see last page)

Please play all video lectures until Section 7

How to submit the quiz reports

You can submit the report(s) in the following way.

Option 1 (recommended)

Please send email to murai@eng.hokudai.ac.jp attaching the report(s) in pdf or jpeg (photo of your written sheet) no later than June 18.

Option 2

Please post your report(s) to a box in front of Murai's office at A5-35 no later than June 18.

Japanese students can use Japanese language in the report. Scoring/credit of this course is evaluated only by the quality of the seven reports.
